Subject: City of Antioch's comments on Second Draft, Interim Plan
Importance: High

To: Delta Stewardship Council
Re: Comments on Second Draft, Delta Interim Plan

Dear Chair Isenberg and Council Members:

The City of Antioch would like to reiterate our July 2, 2010 recommendations for the First Draft, which do not appear to have been addressed in the Second Draft. These are:

- The City of Antioch requested the addition of their intake to the map and discussion of existing conditions in the Delta
- Requested a greater acknowledgement of the historically fresh nature of the western Delta in the Delta Plan. Suggested citing the CCWD historical salinity submittal to SWRCB: http://www.swrcb.ca.gov/waterrights/water_issues/programs/bay_delta/deltaflow/docs/exhibits/ccwd/ccwd_exh6.pdf
- Add text on the economic importance of the western Delta: *municipal, industrial and commercial drinking water supply, fishing, boating, marinas, recreation and tourism*

We look forward to performing a more thorough review and to providing you with additional comments by the August 3, 2010, deadline. Thank you for the opportunity to comment and for your consideration of our requests.

Sincerely,
Ann B. Spaulding, Consultant
